

Rack Mount Kit for Mediatrix[®] C7

The Mediatrix C7 Series are multi-function devices combining VoIP Analog Adapter, Gateway and QoS control in a secure and powerful platform.

This platform, featuring FXS/FXO interfaces, provides an ideal solution for enterprise voice applications or for connecting to a service provider's broadband access.

With FXO interfaces, it is the ideal solution to deploy private or hosted toll bypass networks. It provides a simple, transparent and cost-effective way of maintaining a connection to the PSTN.

The Rack Mount Kit for the Mediatrix C7 Series permits installations in telecom cabinets, datacenters and shelters with 19" racks in a metal shelf.
